BRANDED WEBSITE DESIGN

Old Ways Die Hard

Imagine a situation where you are paying high monthly fees for site “maintenance” or “marketing”, for a website that you cannot update yourself, cannot be moved to another provider, and/or using proprietary code written by a long-gone web developer- yuck. Unfortunately, we see this situation every day. Fortunately we can help.

Our Guarantee

To ensure you receive the best possible website we make the following website guarantee:

- 1) Your website is portable and can be moved from provider to provider wherever you find the most value.
- 2) Your website won't contain elements that require monthly maintenance. When you need maintenance you can always just give us a call. We've been here for 15 years.
- 3) Your website can be updated (text, images and video), with no technical experience required, by anyone, at anytime, anywhere in the world with an internet connection.
- 4) You will always receive the most professional service; be it fast replies to your questions or high quality custom web design.

“Being able to update your own website is liberating and provides your visitors with fresh content that keeps them coming back for more.”

EPhost Website System Features

Regardless of the website package you order all EPhost created websites include the following:

Custom Website Design

Your website is the outward reflection of your company. Do you really want a stock web design to represent your unique company?

Content Management System

Organize and administrate your website design, text, images and video content from an easy to use web-based interface. (CMS Solutions Only)

SEO Friendly Site Structure

When it comes to the standards behind search engine optimization you are covered. You will be able to add page-by-page META information, have a themed content structure and SEO friendly URLs.

Extendable Framework

You will have complete access to all of your files, and databases so that you can extend your website with 1000's of freely available extensions that are compatible with our content management solution.

Support and Training

The completion of your project isn't then end. We always include follow-up training and optionally have low cost premium support for future training and help.
